-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species:

I(a) – determining gas-water ratio of sample (claims 14, 28-35 and 120)

II(a) – determining bubble point of sample (claims 36-61 and 121)

The species are independent or distinct because species I(a) and II(a) are directed to different measurements of a sample which are mutually exclusive in their modes of operation.

2. In addition, this application contains claims directed to the following patentably distinct species:

I(b) – determining likely amount of methane production (claims 86-89)

II(b) – estimating a dewatering value (claim 99)

III(b) – determining pressure drop necessary for production (claim 101)

IV(b) – estimating an economic factor for commercial production (claims 102 and 103)

The species are independent or distinct because species I(b)-IV(b) are directed to unrelated estimations of the formation that are mutually exclusive in their modes of operation.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of both groups for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. For example, applicant can elect groups I(a) and I(b), or can elect

Art Unit: 3672

I(a) and II(b), or can elect II(a) and I(b), etc. Currently, claims 1-5, 8-13, 15, 27, 71-74, 84, 85, 104-106, 113, 116, 122, 123, 145-147, 152 and 153 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
